

# RESEARCH AND REHABILITATION TRAINING CENTER

Can You Hear Me Now? Listening to People with Intellectual and Developmental Disabilities in Health Research

## Our Research Goals:

- 1 Adapt diagnostic, health, and health-related quality of life measures to increase self-report in adults with intellectual and developmental disabilities (IDD)
- 2 Determine the prevalence of mental/behavioral health concerns and health outcomes among adults with IDD
- 3 Develop treatment guidelines for psychotherapy to advance mental health treatment for adults with IDD

## PROJECT GOALS:
